

evec
for everyone

**The UK's most
affordable
Smart EV
charger
for everyone**

OUR MISSION

Removing the barrier to electric vehicle ownership by providing an affordable electric vehicle charging solution for everyone.

WHAT WE DO

With the world transitioning towards electric vehicles at an increasingly rapid rate, there is an accelerating demand for accessible charging infrastructure. evec offers an affordable EV charging solution to target everyone from entry-level to luxury electric vehicle owners.

UNIVERSAL PRODUCT FEATURES

Power

Our chargers are available up to 22kW through either single-phase or three-phase power.

Compatibility

Our untethered models are both Type 1 and Type 2 compatible.

Durability

All charging units are up to IP65 compliant and can withstand temperatures from -25°C to 50°C making them highly durable.

Connectivity

Evec charging app with Bluetooth and WiFi connectivity.

Reliable

All of our chargers comply with local standards, UK protection requirements and are covered by evec's 3-year warranty.

Safety

All of our chargers come with Protective Earth Neutral Protection, Over Current Protection and Residual Current Protection as standard.

CORPORATE SOCIAL RESPONSIBILITY

We've partnered with Cool Earth and Earthly to tackle deforestation and become a Climate Positive Business.

EARTHLY

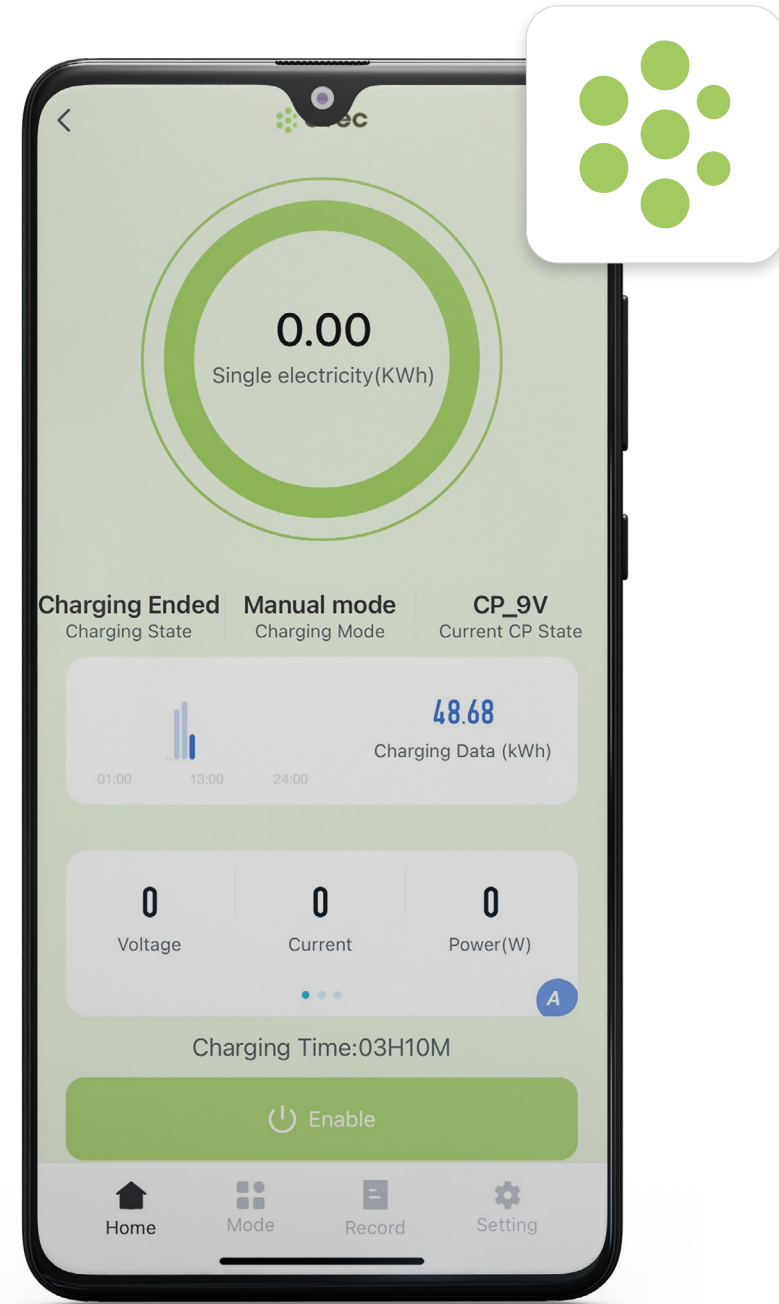

**COOL
EARTH**

EVEC APP

Simple to use and easy to set up, our app gives you full control over your EV charging, allowing you to:

- Turn On & Off
- View Charge Status
- Schedule Charging
- Monitor Usage
- Enter Manual Mode For Your Charger To Become A Simple Plug & Play.

It's FREE to download now.

COMPATIBILITY

Compatible with all EV & PHEVs

Single-Phase Untethered Charger

Our universal single-phase VEC01 is an affordable fully featured EV and PHEV charger that is perfect for your home. Despite its low cost, it's a compact, modern unit that doesn't compromise on quality and is entirely compatible with all electric and plug-in hybrid vehicles.

-  **Power**
3.7kW - 7.4kW
-  **Compatibility**
Type 2 Socket to Type 1 & Type 2 Inlet Port

Features

- Universal charging port
- Cost-effective and compact
- Built-in LED lights that display charging status and error messages
- Built-in PEN Protection
- Full OCPP 1.6J protocols including smart charging
- Load Balancing
- Evec App
- Corrosion resistant and fire retardant
- IP55 rated dust and weatherproof
- Adjustable power settings (3.7kW or 7.4kW)
- CE and UKCA approved

Three-Phase Untethered Charger

Our universal three-phase VEC02 is an affordable fully featured EV and PHEV charger that is designed for a three-phase power supply, normally in commercial environments like the workplace. This enables the charger to charge the vehicle at up to 22kW's, significantly faster than the domestic home version VEC01. Despite its low cost, it's a compact, modern unit that doesn't compromise on quality and is entirely compatible with all electric and plug-in hybrid vehicles.

-  **Power**
22kW
-  **Compatibility**
Type 2 Socket to Type 1 & Type 2 Inlet Port

Features

- Universal charging port
- Cost-effective and compact
- Built-in LED lights that display charging status and error messages
- Built-in PEN Protection
- Full OCPP 1.6J protocols including smart charging
- Load Balancing
- Evec App
- Corrosion resistant and fire retardant
- IP55 rated dust and weatherproof
- CE and UKCA approved

Single-Phase Tethered Charger

Our single-phase VEC03 is an affordable fully featured EV and PHEV tethered charger that is perfect for your home. Despite its low cost, it's a compact, modern unit that doesn't compromise on quality and is the perfect way to charge your Type-2 EV or PHEV. Better yet, pair the tethered charger with our wall cable holder to keep your cable organised and secure while it's not in use.

Features

- Type 2 charging port with attached Type 2 cable
- Cost-effective and compact
- Built-in LED lights that display charging status and error messages
- Built-in PEN Protection
- Full OCPP 1.6J protocols including smart charging
- Load Balancing
- Evec App
- Corrosion resistant and fire retardant
- IP55 rated dust and weatherproof
- Adjustable power settings (3.7kW or 7.4kW)
- CE and UKCA approved

 **Power**
3.7kW - 7.4kW

 **Compatibility**
Type 2

Three-Phase Tethered Charger

Our three-phase VEC04 is an affordable fully featured EV and PHEV tethered charger that is designed for a three-phase power supply, normally in commercial environments like the workplace. This enables the charger to charge the vehicle at up to 22kW's, significantly faster than the domestic home version VEC03. It's a compact, modern unit that doesn't compromise on quality and is the perfect way to charge your Type-2 EV or PHEV. Better yet, pair the tethered charger with our wall cable holder to keep your cable organised and secure while it's not in use.

Features

- Type 2 charging port with attached Type 2 cable
- Cost-effective and compact
- Built-in LED lights that display charging status and error messages
- Built-in PEN Protection
- Full OCPP 1.6J protocols including smart charging
- Load Balancing
- Evec App
- Corrosion resistant and fire retardant
- IP55 rated dust and weatherproof
- CE and UKCA approved

 **Power**
22kW

 **Compatibility**
Type 2

CABLES AND ACCESSORIES

Bag

Untethered charge cables can be easily stored and transported when not in use.

Holder

Tethered charge cables can be safely stored when not in use.

Type 2 – Type 1 Cable

There is a single-phase cable available to charge Type 1 PHEV's and EV's from untethered Type 2 chargers.

Type 2 Cable

Additional charging cables are available that work with either the single-phase or three-phase untethered boxes.

evec
for everyone

Approved
installation partner.
